

We are LAMDA Development S.A., a holding Company, member of the Latsis Group, specializing in the Development, Investment and Management of Real Estate, listed on the main market of the Athens Exchange.

We are proud to be a leader in the Retail Real Estate sector in Greece, with successful projects in the office and residential sectors!

Our portfolio includes The Mall Athens & Golden Hall in Athens, Mediterranean Cosmos in Thessaloniki, office buildings, innovative residential complexes and, the Flisvos Marina in Faliro.

In 2014, LAMDA signed the contract with the Greek state for the acquisition of the shares of the "Hellinikon SA". The project includes all the land area of the old Athens airport and the coast front, totaling 6,2 mil sq. m. and will be the largest urban regeneration investment ever in Greece.

This investment will include a diverse range of residential communities, hotels, shopping centers, family entertainment venues, museums and cultural venues, health and wellness centers, significant space for sports and recreation, a modern business park with an educational and R&D hub as well as the total regeneration of the existing marina and the entire Coastal Front that will, along with the Park, will be the major attractions of the site.

In Greece, we are currently a team of about 200 colleagues, located in Athens and in Thessaloniki.

We constantly try to create an environment that promotes employees' professional growth, based on the principles of attracting, developing and retaining human capital, offering equal opportunities to everyone.

To meet current corporate needs, we would like to bring to our team a

Archeology Manager

The Hellinikon Project

Reference code: ARMH

The Archeology Manager will be reporting to the Planning, Design & Permitting Director.

Our new colleague in this position will be responsible to control and manage the interaction of Hellinikon Project with the Archeology Authorities during the design/permit and construction stage.

In this role, he/she will be the focal point for the Hellinikon Project, to communicate and co-ordinate the management of Archeology requirements applied in our Project. Our colleague will participate, under the direct supervision of PDP Director, in the Hellinikon project permit process, will ensure compliance and shall provide regular reporting the status of the work in Archeology Authorities.

In detail, the Archeology Manager, will be responsible for the following aspects of the Hellinikon Project:

- **Master Planning & Design Management:** Participates in the development of the Master Planning of Hellinikon Project and provides all relevant technical information, including drawings, calculations, submissions, as well as various technical documents related to Archeology authorities' requirements. Additionally, our new colleague in this role, shall participate in the design management and shall interact with all the related design consultants/advisors with regards Archeology authorities requirements
- **Design Review and Coordination:** Provides advice and recommendations to the Planning, Design & Permitting Director on design approvals & reviews of design submittals, always in regards with to the Archeology authorities' requirements. He or she will also ensure the co-ordination with the stakeholders (Specialist designers, End users, Authorities, Project and Construction Managers, Contractors) for resolution of any technical matters that may come up, related to Archeology authorities requirements, for their timely resolution at the design and construction stage
- **Participation in the Hellinikon Project permit process:** our new colleague will also participate in the Permitting Process of our Project, ensuring that design and construction meets legislation, standards and codes of Archaeology Authorities
- **Construction Management:** Liaises with Construction, Project Managers & Contractors & supervises the construction activities with regards to Archeology authorities requirements and, of course, ensures compliance

You will be a successful candidate for our opening, if you can identify yourself with the following criteria:

Academic Qualifications:

- A Bachelor, and ideally an MSc degree, ideally combining Architecture and Archeology

Professional Experience:

- Have primarily worked on construction with highly interaction and involvement with Archeology Authorities
- Can demonstrate a basic commercial awareness of working in construction projects
- Ideally, a solid background in design consultancy and construction activity and have worked with international consultants, contractors and major clients regarding the completion of projects
- Deep knowledge of Greek Building Regulations and Greek legal framework
- On a personal side, strong communication skills and a proven ability to communicate and interact with state authorities are important skills for the position
- Commercial awareness
- Ability to gain the trust and support of other co-workers & encouraging collaboration!

Our Company offers:

Our vision is to bring to life the largest urban regeneration project in Europe. So we need to attract the most talented people in our industry & offer all the necessary means and procedures to support them, not only to fill their job description but also to rise above and beyond expectations!

Thus, we do provide:

- A passionate working environment
- A competitive compensation package according to professional experience, combined with additional benefits
- An exceptional opportunity to work and develop in one of the most challenging projects in Greece!
