

We are LAMDA Development S.A., a holding Company, member of the Latsis Group, specializing in the Development, Investment and Management of Real Estate, listed on the main market of the Athens Exchange.

We are proud to be a leader in the Retail Real Estate sector in Greece, with successful projects in the office and residential sectors!

Our portfolio includes The Mall Athens & Golden Hall in Athens, Mediterranean Cosmos in Thessaloniki, office buildings, innovative residential complexes and, the Flisvos Marina in Faliro.

In 2014, LAMDA signed the contract with the Greek state for the acquisition of the shares of the "Hellinikon SA". The project includes all the land area of the old Athens airport and the coast front, totaling 6,2 mil sq. m. and will be the largest urban regeneration investment ever in Greece.

This investment will include a diverse range of residential communities, hotels, shopping centers, family entertainment venues, museums and cultural venues, health and wellness centers, significant space for sports and recreation, a modern business park with an educational and R&D hub as well as the total regeneration of the existing marina and the entire Coastal Front that will, along with the Park, will be the major attractions of the site.

In Greece, we are currently a team of about 200 colleagues, located in Athens and in Thessaloniki.

We constantly try to create an environment that promotes employees' professional growth, based on the principles of attracting, developing and retaining human capital, offering equal opportunities to everyone.

To meet current corporate needs, we would like to bring to our team a

Senior Cost Engineer

The Hellinikon Project

Reference code: SCEH

The Senior Cost Engineer will be reporting to the Cost Manager.

Our new colleague in this position will be responsible to provide technical expertise, for the Hellinikon Project, regarding the Cost Management function; he or she will support other Project and Programme Controls functions, shall play a key role in the integration, analysis and monitoring the Hellinikon Project Cost data, as well as in the preparation of all relevant reports.

In detail, the Senior Cost Engineer, will be responsible for the following aspects of the Hellinikon Project:

- **Change Management Framework:** our new colleague in this role, will support the development, management and implementation of the Project's Cost Management Plan, Policies and Procedures. Additionally, he or she will focus on the development, management and administration of the relevant Cost Management Systems and liaise with the Cost Management team and consultants
- **Cost Estimation:** The Senior Cost Engineer will also develop, manage, update, report and issue the Project's Cost Estimate; he or she will be integrating the assigned Consultants and Project Managers cost estimated data, and of course, reflect and align with the associated schedules and baselines
- **Cost Performance Management & Reporting:** Develop, manage, update, report and issue the Project's Cost Performance (Actual And Forecast Cost, Performance Management), by integrating all relevant costs (assigned Consultants, Project Managers and Contractors Project Cost Data). He or she will be working closely with the Procurement and Commercial teams and be present in the associated Cost Management Meetings. The person in this position, shall prepare and issue on the Monthly/Quarterly/Annual Progress, as well as any ad-hoc reports and presentations to the Management Team and the Internal and External Stakeholders. Finally, he or she will also be in charge to develop templates and dashboards related to Risk data, conduct "what-if" studies, based on the Risk data and providing independent analyses, for proposed Project revisions and changes
- **Cost Assurance:** Responsible for the assurance of all cost data submitted by the Consultants, Project Managers and Contractors, adherence checking, and reporting against agreed cost KPIs
- **Integration:** our new colleague should also be alert to any cost changes/variations that may influence the Project's outcomes; support the development, management, updating, reporting and issuing of the Integrated Project Master Schedule and Baseline; liaise, support and integrate with the cost, risk and scheduling teams

You will be a successful candidate for our opening, if you can identify yourself with the following criteria:

Academic Qualifications:

- A Bachelor degree in Engineering/ Construction, ideally combined with a Project Management post graduate degree

Professional Experience:

- Subject matter expert in the areas of Cost Management, with over 10 years of relevant professional experience
- At least 10 years of working experience in the development and delivery of major programmes, in the areas of Project and Programme Cost and Estimating Management
- Good understanding of other Project and Programme Controls functions
- Good Knowledge of Cost Management Systems

- Proficient MS Office User
- On the personal side, the ideal candidate for this position is adaptable to a changing environment
- Excellent team member, with good communication skills willing to contribute in areas outside own responsibility
- Good organizational, analytical and report writing skills, accurate record keeping
- Able to establish and promote a Cost Management culture for our Project!

Our Company offers:

Our vision is to bring to life the largest urban regeneration project in Europe. So we need to attract the most talented people in our industry & offer all the necessary means and procedures to support them, not only to fill their job description but also to rise above and beyond expectations!

Thus, we do provide:

- A passionate working environment
- A competitive compensation package according to professional experience, combined with additional benefits
- An exceptional opportunity to work and develop in one of the most challenging projects in Greece!
