### LETTER TO THE **SHAREHOLDERS**

### **Dear Shareholders,**

2011 was another very challenging year for LAMDA Development Group as we had to adopt appropriate strategies to deal with the effects of the ongoing economic crisis in Greece. Indeed we believe we were successful in managing our priorities, namely safeguarding the superior performance of our shopping centers, securing a satisfactory liquidity position at group level, efficiently managing risks and aggressive monitoring of investment opportunities.

### **Developments in 2011**

In spite of the prevailing economic depression 2011 was, compared to the negative developments in the market, another satisfactory year in terms of recurring EBITDA that reached €38.2 million, showing a drop of 10.5% from the previous year. In terms of retail recurring EBITDA which is our core business the decrease was only by 4%, a result which demonstrates the resilience of our shopping centers performance until now. It is without doubt that our shopping centers continue, even more so than in the past, to be very popular social destination for the consumer public. We have placed great management effort and provided extra funds in maintaining and promoting high visitor frequencies and procuring very supporting retail platforms to the totality of our tenants. Besides securing occupancies close to 100% we have managed to show results that are clearly favorable in comparison to the rest of the retail market in Greece, including a very acceptable bad debt ratio of 1.7% on total revenues.

Shopkeepers' turnover in our three malls dropped by an aggregate of 8% compared to an average of 20%-30% drop in the corresponding retail subsectors in Greece as a whole. Shopkeepers continue to have the advantage of lower rents compared to the high street while enjoying major support from us via marketing, promotional and communication activities. In this respect our contribution as owners has been quite significant and has been adequately recognized by our tenant base as reflected in the continuity and renewal of the existing contractual leases, in our consistent policy of rental levels, as well as in the full occupancy of our shopping centers.

Undoubtedly, the retail industry trend in favor of large retail centers has been further strengthened during the economic downturn, as evidenced by the relatively stable and comparatively impressive customer visits and increase in retail market share.

More specifically, total tenant sales decreased by 9% in the Mediterranean Cosmos and in The Mall Athens, whereas shopkeepers' turnover in the Golden Hall decreased by 5% compared to the previous year. Annual aggregate shopkeeper sales in our three shopping centers approximate €650 million.

With regard to our other operating assets it should be noted that Flisvos Marina has been mostly affected by the Greek crisis, the increase in the concession rent by 20% and also by the unfair competition that has prevailed in the Attica region. As a result both recurring profitability and turnover have been reduced by €2.2 million and €1.5 million respectively. Following long discussions with the State Property Company we have agreed to apply for official arbitration regarding the appropriate level of concession rent. In the medium term we believe that when the general economic situation in Greece stabilizes and competition in the Attica region returns to healthy levels, Flisvos Marina shall return to its profitable historical performance and capitalize on its unique location, facilities, services and excellent reputation. The marina enjoys the unparalleled competitive position to offer its services to mega yachts for about half of the total berthing capacity. Furthermore, the very pleasant land commercial facilities attract an ever increasing number of visitors rendering the marina a very popular social destination point.

Dividends from EUROBANK Properties, the listed real estate investment company in which LAMDA Development owns 14.8% of its share capital offered an 8.6% dividend yield and hence added €3.5 million in our income line. We continue to hold our investment position as we believe that the company has very strong capital structure, good quality of tenants and a solid investment portfolio. All these merits are not reflected in its share price, which is traded at a very significant discount, almost 65%, compared to its reported Net Asset Value. The total number of shares purchased in the last three years has reached approximately 2.8 million at an average acquisition cost of €6.40/ share. Due to the drop in its share price, in 2011 we realized a revaluation loss of €19.4 million which decreased our NAV by same amount in the balance sheet.

Our subsidiary LAMDA Hellix, the leading neutral mission critical facility operator, continued with its outstanding performance and contributed € 2 million in our income from participations.

On the cost side it should also be underlined that we managed to further decrease overheads by 4.6% in 2011. Total overheads cost containment has reached over 20% in the last three years.

On the negative side, revaluation losses in our property portfolio reached €37.7 million. The total fair market value of our shopping centers and offices dropped further by 4.5% mainly due to further increases in capitalization rates. The impact on valuations would have been significantly larger if the property appraisers had not positively accounted for the substantial sustainability of recurring EBITDA and our strong market leadership. As a result consolidated group net losses reached €28.6 million, following a net loss of € 29.1 million in 2010 also due to property revaluation losses.

As a result of the net loss and the mark to market valuation loss in our minority shareholding in Eurobank Properties shares consolidated Net Asset Value dropped by 12% to €396 million, or €9.6 NAV/share.

We continue enjoying a relatively comfortable liquidity position and reiterate our cautious approach in cash flow planning. Debt has been reduced by €32 million, total interest rate cost reached 4.23%, loan to value ratio stands at 51% and major loan repayments do not take place before mid-2014. Our group cash position amounted to over €130 million at the end of the year, a comfort that allows us to support our ongoing operations and also contemplate leveraging new investments when new opportunities arise. We also like to mention here that we added to our cash position in 2011 the sale proceeds of the Othonos office building (€ 6.6 million).

With regard to new real estate development activity we remain very cautious in view of the recessionary economic conditions in Greece and SE Europe where we hold our land banking assets. We continue with our focus on our two major investments in Belgrade, namely BEKO and Singidunum, for which the planning process is proceeding satisfactorily. In the BEKO mixed use project we have decided to change strategy and employ world class architects to attract more international potential interest. As stated in our strategy last year we would not contemplate to start construction activity without satisfactory percentage of pre-sale or pre-let agreements and after attracting partnerships with appropriate know how and financial capacity.

The company's common stock in the Athens Exchange continues to trade at a heavy discount to NAV (c.75%) We believe that such large discount to NAV is totally unsubstantiated and that it solely reflects the grim sovereign risk situation and not the fundamentals of our company. During 2011 we also continued our share buyback program and total treasury stock reached 7.2% of total common stock at an average cost of €5.07/share.

#### **Going Forward**

Deep fiscal tightening and nadir psychology has an alarming recessionary impact on the Greek economy and of course on retail sales and occupier demand. Despite the deep recession in the Greek economy for the fifth year in a row, we remain confident, based on recent performance and actual results, that we shall continue to stay afloat and successfully manage our investment portfolio with all required amount of effort and problem solving involvement, capitalizing on our leading market position, the skills and experience we have accumulated and the good relationships we have built with most of the retailers with presence in Greece who are also tenants in our shopping centers. Maintaining a satisfactory liquidity position under the prevailing pressing conditions imposed by the economic and banking crisis is key to managing successfully through this difficult period. Risk management and cost control shall continue to be of absolute key importance to us.

Regarding our development pipeline our first priority remains our two major projects in Belgrade where we continue to focus on actions to expedite detailed planning permissions and hence finalize development business plans.

In reference to pursuing new business opportunities we shall continue with our strategy to primarily focus on the retail real estate sector. We shall also monitor opportunities in the second home residential sector as we believe there is significant growth potential in Greece. We are being particularly active in monitoring the projects tendered by the Hellenic Republic Asset Development Fund and have already participated and have been selected as a candidate for purchasing the 90 year exploitation right of the IBC building, part of which is occupied by Golden Hall. We have also participated in the pre-selection process in the mega project of Elliniko (the old airport area in Athens) as we are seeking to play an important role hopefully leading us to pursue in the years to come our interests in retail real estate, second home residential and marinas.

#### **Dear Shareholders,**

Despite the well-known market difficulties that most of us face in the region we are confident that we shall succeed in securing our company's leading competitive position and become an even more important regional player in the real estate sector in the future. I also want to renew my thanks to our employees for their effort and enthusiastic support in sharing this common vision.

On behalf of the management and company employees, I want to thank you for the trust you have placed in us.

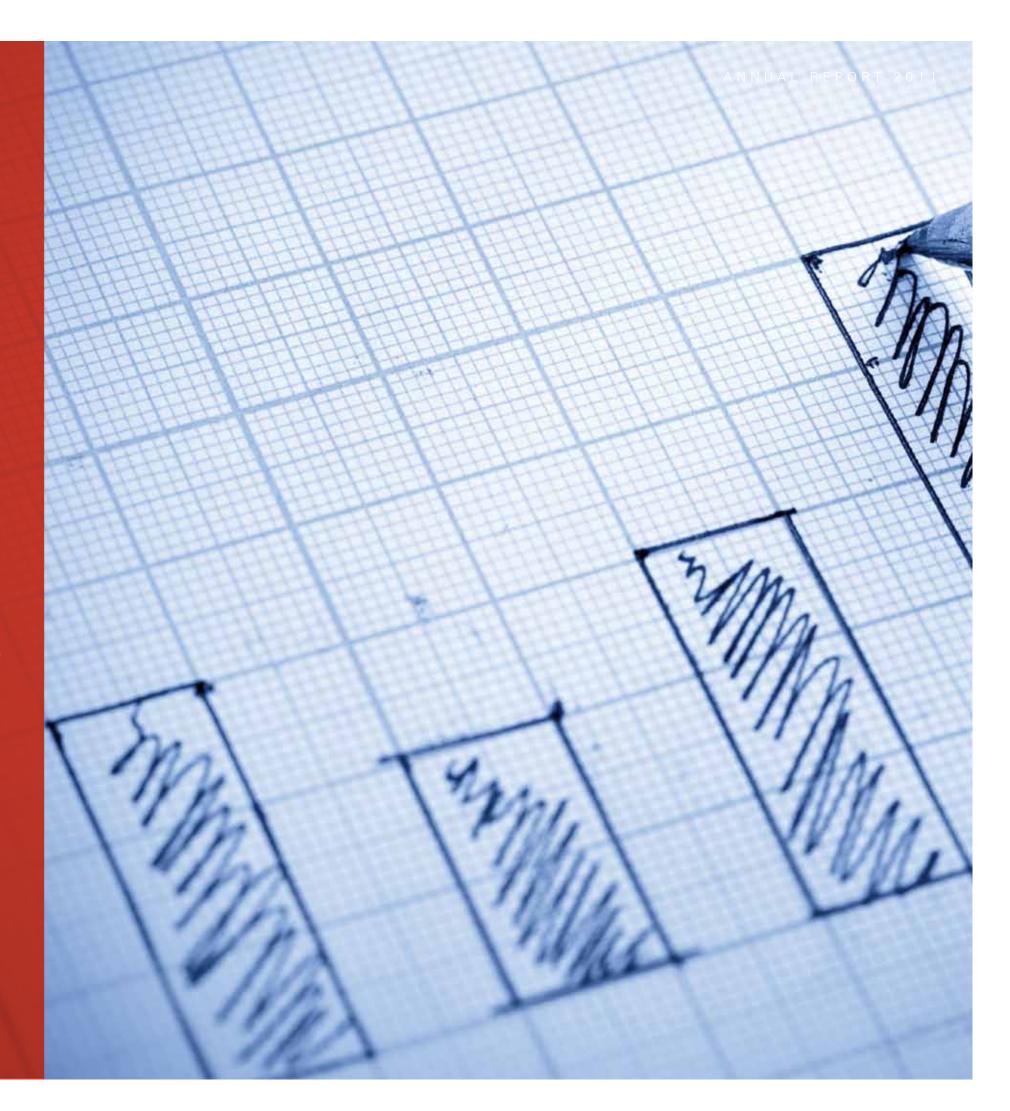

Odisseas Athanassiou Chief Executive Officer LAMDA Development

## FINANCIAL **PERFORMANCE**

### Group Recurring EBITDA

reached €38.2 million compared to €42.7 million in 2010, registering a manageable decrease of 10%, while operational profitability of our shopping centers posted a 4% marginal decrease. The level and quality of rental income continue at highly acceptable levels as in the previous years, while occupancy in our shopping centres remains close to 100%. Despite the challenges in maintaining and promoting visitor frequencies and satisfactory consumption levels to support the totality of our tenants, we have managed to show results that are very favorable in comparison to the rest of the retail market in Greece. Shopkeepers' turnover in our three malls dropped by an aggregate 8.3% compared to an average of 20%- 30% drop in the corresponding retail subsectors in Greece as a whole. The quality of rent receivables from tenants is managed in a very satisfactory fashion as bad debt provisions amount to about 1.7% of total annual tenant obligations, while rent levels remain at contractual levels after taking up most of the common charges.

More specifically, the operation of Golden Hall has been quite satisfactory given that recurring profitability posted a marginal decrease of 4% while shopkeepers' turnover decreased by 5%. Shopkeepers' turnover in The Mall Athens for the same period decreased by 9%, while recurring profitability dropped by 5% only. In Mediterranean Cosmos, in Thessaloniki shopkeepers' turnover also dropped by 9%, customer visits remained at last year's level and recurring profitability decreased by 4%. It should be noted that, following our undertaking of the full management of Mediterranean Cosmos in December 2010, various corrective actions and improvements are being successfully implemented in order to further improve the quality of the center and to fortify the product mix with strong brand names, such as, among others, ATTICA, H&M, INTERSPORT and AP-PLE. In addition, the project of architectural and aesthetic improvement of Mediterranean Cosmos has progressed very significantly without affecting the smooth operation of the shopping mall while the improvement is impressive as admitted by shopkeepers and consumers alike. This investment reiterates our long term commitment to our Shopping Centers. Our Group has initiated various targeted marketing & promotional activities and investments to upgrade the shopping centers, including the launch of the credit card YES and the take-up of most part of common charges in order to help shopkeepers during this difficult period. As far as our office buildings are concerned, they still enjoy high occupancy levels and a positive contribution to the Group recurring profitability by nearly €2.5 million.

Flisvos Marina posted a decrease of €2.2 million approximately in recurring profitability versus last year, mainly due to the economic

recession, the increase of the concession fee by 22% or €1.2 million and the continuing yacht defects towards the nearby Agios Kosmas Marina that operates without paying rent to the Greek State. Flisvos Marina is still the only marina in Greece where approximately 50% of the 300 berths can be used by mega yachts with over 30 meters length. The onland commercial development (retail shops and restaurants) continues to attract impressive footfall that approximates 15.000 visitors per day during the weekend and has become a reference point among the public in the seaside part of Athens.

Another important component of our income generating assets is our investment in EUROBANK Properties, the listed real estate investment company, in which LAMDA Development owns 14.8% of its share capital as of 31-12-2011. We continue to hold our investment position in subject company as we believe that it has very strong capital structure, good quality of tenants and a solid investment portfolio. All these merits are not reflected in its share price, which is still traded at a significant discount, almost 65%, compared to its reported Net Asset Value. The total number of shares purchased in the last three years has reached approximately 2.8 million at an average acquisition cost of €6.40/share. Due to the drop in its share price, in 2011 we realized a revaluation loss of €19.4 million which decreased our NAV by same amount in the balance sheet.

It should be noted that Group overheads were 4.6% lower as a result of our on-going cost cutting effort. Over the last 3 year period, overheads have been reduced by 20% approximately.

The consolidated turnover of LAMDA Development Group during 2011 decreased only slightly by 1.0%, reaching €81.8 million, compared to €82.6 million in 2010.

Consolidated Net Loss after tax and minority interest reached €28.6 million compared to €29.1 million in 2010. Net loss is attributed to the fair value losses from our investment portfolio (€37.7 million in 2011) as well as to the annual net interest expense of €20.6 million, a figure increased by €2.8 million due to higher interest rates.

Revaluation losses in our investment portfolio reached €37.7 million. The total fair market value of our shopping centers and offices dropped further by 4.5% given further increases in capitalization rates, a result of increasing sovereign cost of risk and the lack of investment interest. The valuation of the Group's investment property at fair market value by the chartered surveyors Savills Hellas has an average net initial yield of 8.1% for the commercial centres and 8.3% for office buildings. The impact on valuations would have been significantly larger if the property appraisers had not positively accounted

for the sustainability of recurring EBIT-DA and our strong market leadership.

As a result of the net loss and the mark to market valuation loss in our minority shareholding in Eurobank Properties consolidated Net Asset Value dropped by 12% to €396 million, or €9.6 NAV/ share

Total investments in property reached €825.9 million on 31st of December 2011. The allocation of property investments, per type of property and per geographical location is illustrated below.

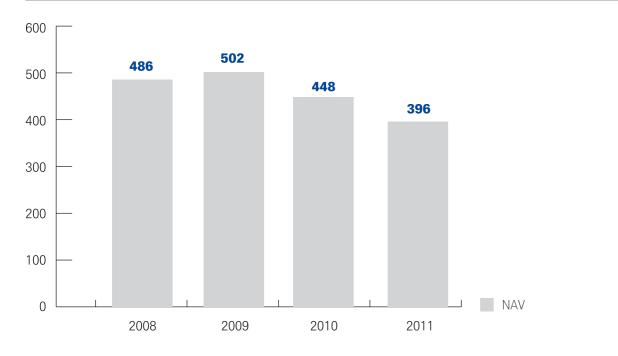

Loan to Value ratio stands at the healthy level of 51%. The Group maintains considerable liquidity of €130 million at the end of 2011, originating from own equity and bank loans in order to finance its development plan, but also to exploit potential investment opportunities, which may emerge in the near future as a result of the financial and economic crisis.

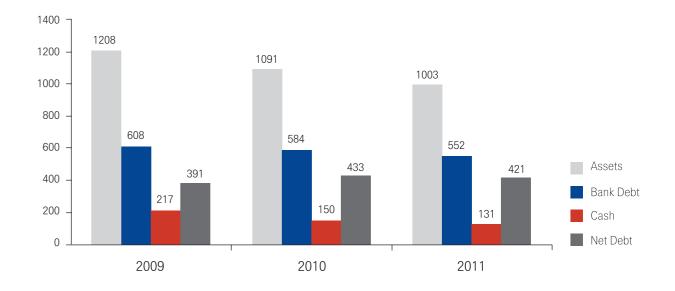

With regard to new real estate development activity we remain very cautious in view of the recessionary economic conditions in Greece but also in SE Europe where we hold our land banking assets. As stated in our strategy last year we would not contemplate to start construction activity without satisfactory percentage of pre-sale or pre-let agreements. New funds are allocated only to complete zoning and permitting requirements, primarily in Belgrade.

### **Share Performance**

Our share price in 2011 had a negative return of 36%, which was in line with the poor performance of the Athens Exchange. The local stock market has crashed due to the fact that the economic crisis in Greece has deepened and the fact that the Greek economy is still in deep recession for consecutive years. The free float of our stock stands at year end approximately at the level of 30%.

It should be noted that the share is part of the relevant ATHEX indexes and the

Pan-European index EPRA/NAREIT, which consists of the most important shares of European real estate listed companies, therefore reinforcing its awareness amid the international investment community.

### THE MALL ATHENS

The Mall Athens, Greece's largest shopping and leisure centre began its operation in November 2005 and represents a milestone in Greek commercial reality, offering commercial and leisure facilities in 58.000 sq. m. of Gross Leasable Area (GLA).

The large number of shops, combined with the multiple dining and leisure areas, easy and well protected parking areas, full-scale management services as well as direct and easy access to major highway routes and public transport have made The Mall Athens the perfect destination for the whole family.

The Mall Athens is constantly organizing various events for the whole family, thus making the center one of the hottest spots in Athens for shopping and entertainment, offering a unique lifestyle experience to its consumers.

Due to its location, modern architectural design and support services, The Mall Athens offers customers easy, pleasant and safe visit so that they can choose what they want easily and effectively. The Mall Athens is built on five levels of commercial use and three levels of underground parking space. It comprises 195 stores, including the most significant Greek and international brands, and offers 25 restaurants and cafes, a state-of-the-art 15-screen cinema complex, a multitude of support services and approximately 2.065 parking spaces.

Recently, The Mall Athens launched with big success a new exhibition area on the 4th floor, expanding the entertainment areas and refreshing totally the 4th floor. The first exhibition hosted the Natural History Museum of London (Dino Jaws).

ECE-LAMDA Hellas, a specialist in the management of shopping centres, has undertaken the management of the centre.

The investment value of the commercial and leisure centre reached €320 million, while its current fair market value stands at €475 million.

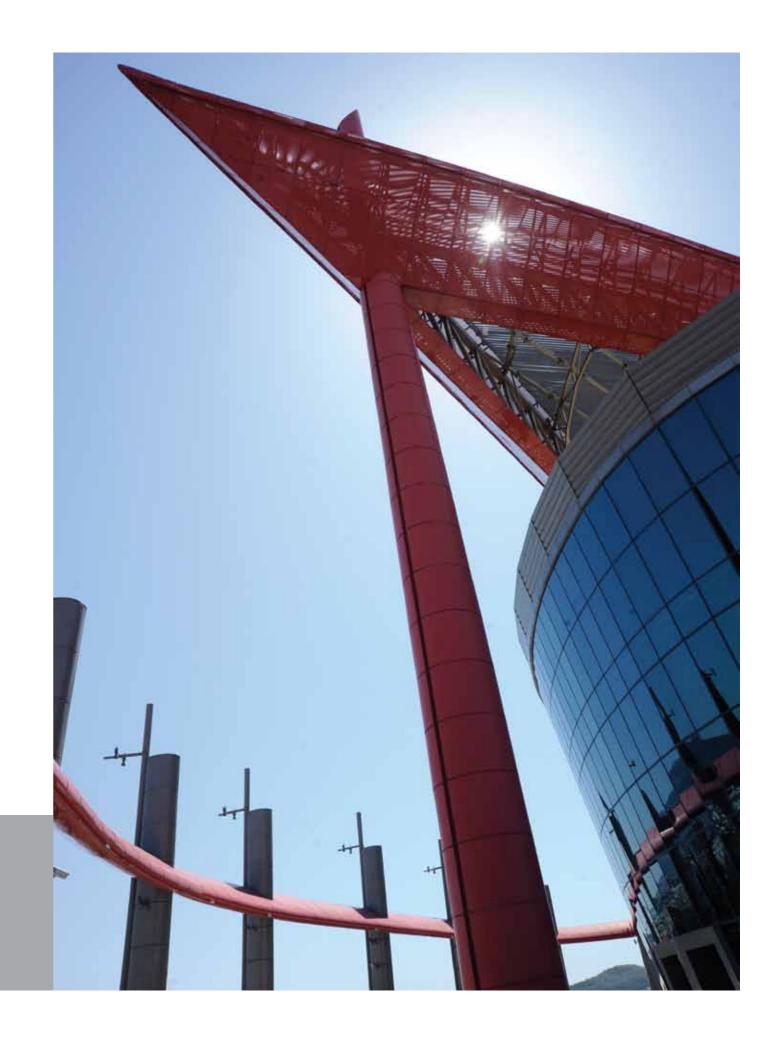

This is considered to be one of the largest private real estate investments ever implemented in Greece. The Mall Athens hosted approximately 11.3 million visitors during 2011. In 2011, shopkeepers' turnover reached €300 million (including VAT), while rental and parking revenues amounted to €36 million. Operating profits for the shopping centre reached €31 million. The centre is fully leased, while demand from companies expressing interest in leasing space is particularly high. The investment has created approximately 2.500 new jobs. HSBC Property Investments Ltd has a 50% share in LAMDA Olympia Village, owner of The Mall Athens. With regard to The Mall Athens legal issues,

please refer to the Annual Financial Report 2011, which is also uploaded on the company's website, www.lamda-development.net.

### **GOLDEN HALL**

Golden Hall is ideally located on Kifissias avenue, close to the Athens Olympic Stadium and expands over three levels. Its 132 shops are occupying approximately 41.000 sq.m., while 1.400 parking lots are provided on two levels in order to facilitate visitors.

The first two levels of the shopping center host mainly shops of women's, men's, children's fashion and footwear, accessories, jewellery stores, home equipment and decoration, cosmetics, sportswear, hair salon, bookstores, etc, and while shopping, visitors can indulge a coffee and snack break among its 7 cafes. The third level has five restaurants offering visitors different gastronomic options of Greek and international cuisine as well as a playground for children and a fully equipped area for teenagers.

The most famous Greek brand names and the most renowned international ones - many of which are introduced for the first time to the Greek market through Golden Hall - have made the shopping centre the new point of reference for quality shopping in Greece, offering a new dynamic to the commer-

cial world. Furthermore, Golden Hall is becoming a cultural epicenter offering its visitors unique possibilities of recreation at no cost for them. The center has hosted art exhibitions with works of art by renown greek painters, daily shows from the National Theater of Greece and the Greek National Opera, as well as many other similar kind of activities that offer Golden Hall's visitor an enhanced experience.

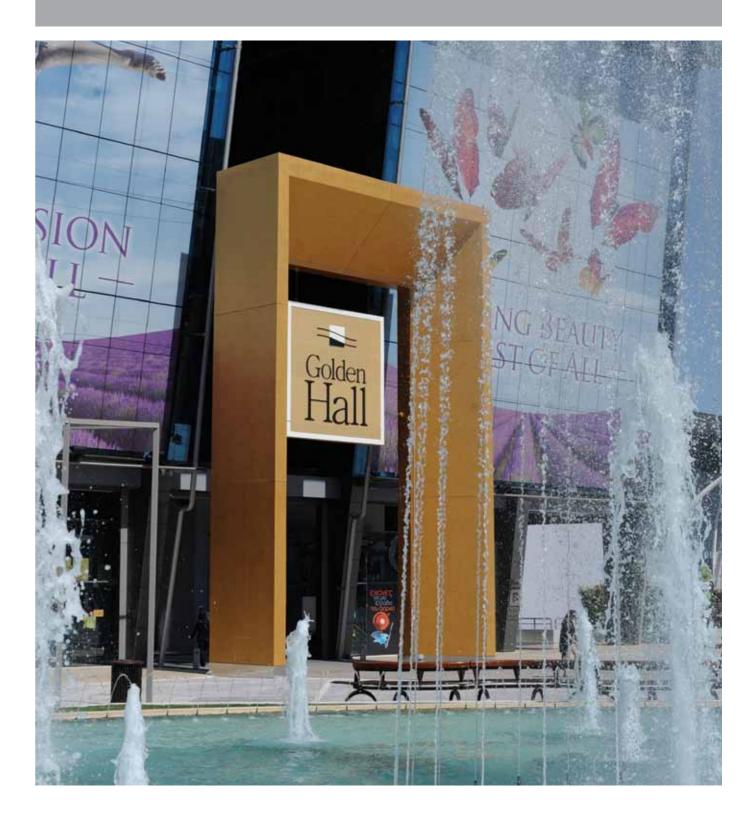

The development cost for Golden Hall amounted to approximately  $\in$ 80 million, while its current commercial value approximates  $\in$  105 million. Shopkeepers' turnover reached  $\in$ 160 million (including VAT), while rental and parking income (including office complex) amounted to  $\in$ 20 million. Operating profits for the shopping center reached  $\in$ 8,2 million . The center center is almost fully leased. ECE-LAMDA Hellas, a specialist in the management of shopping centres, has undertaken the management of the centre.

Golden Hall is top rated in European Level in the European Shopping Centre Awards (ICSC) and was awarded the first prize in its category. With regard to Golden Hall legal issues, please refer to the Annual Financial Report 2011, which is also uploaded on the company's website, www.lamdadevelopment.net.

### **MEDITERRANEAN** COSMOS

Mediterranean Cosmos in Thessaloniki, the largest commercial and leisure centre in northern Greece, began its operations in October 2005. The centre's most important advantages are the large number of shops, the diverse dining & leisure areas, the wide range of activities for all family members within the same venue, as well as the full-scale property management services provided by the centre.

Mediterranean Cosmos stands on a 250.000 sq.m. site owned by the Ecumenical Patriarchate and has been developed on two main levels of 46.000 sq.m. of Gross Leasable Area, which are served by a network of interior pedestrian pathways. The shopping centre offers approximately 3.000 parking spaces.

Mediterranean Cosmos is an everyday destination for everyone due to its

209 shops, 37 restaurants and cafes, super-markets, a cinema complex and a bowling room, a 400-seat open theatre, a playground, an Orthodox church, exemplary auxiliary services and a traditional Greek village. The centre provides easy access from the city centre and surrounding areas, and is located within five minutes distance from the international airport and major highways.

LAMDA Development has 100% ownership of Mediterranean Cosmos and the full control of the management of the shopping center. The development cost of the centre reached €120 million, while its current fair market value stands at €175 million.

Following the acquisition, LAMDA Development has proceeded with its strategy to fully exploit the centre's potential along 3 axis:

Tenant mix optimisation; in 2011
 approximately 33% of total GLA has
 been re-leased to major international
 and national brand names such as Attica
 Department Stores, H&M, Intersport,
 Golden I (Apple Premium Reseller) and

 Major refurbishment of common

areas; the works started in September

2011 and are estimated to reach a total

of €5 million when concluded. Approximately 66% of works have been completed which, together with the new brands in place, have fully transformed the centre image and the customer's experience.

3) Revised Marketing Plan; by leveraging both on Lamda's extensive know how and the Centre's unique strengths such as its strong potential for a tourist pool.

Mediterranean Cosmos attracted 8,2 million visitors during 2011. Shopkeepers' turnover amounted to €185 million (including VAT) and rental income amounted to €20 million. Operating profits for the commercial centre reached €14.6 million. The centre has almost 100% occupancy and has created approximately 2,000 new jobs.

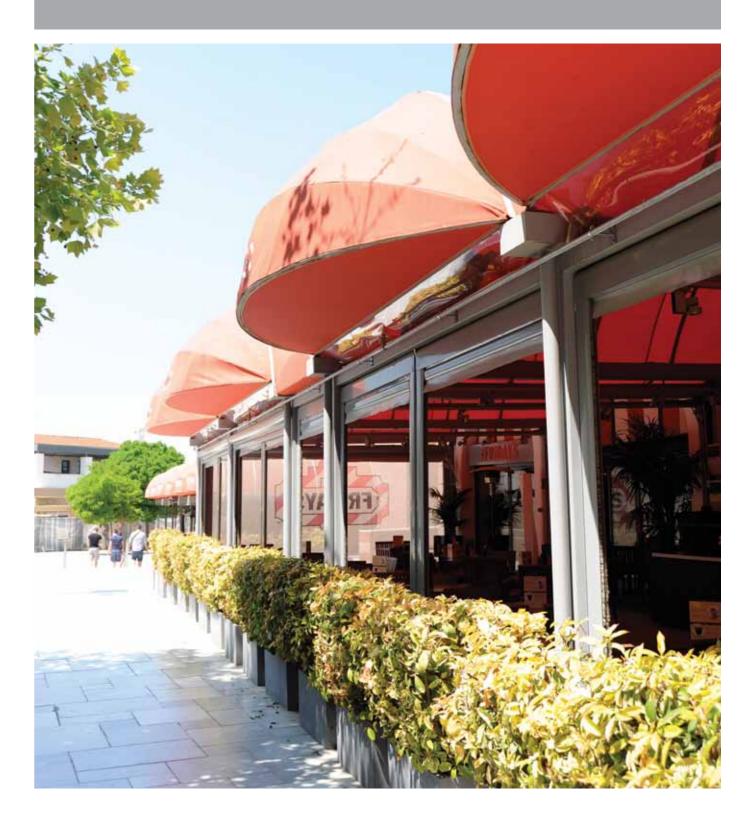

For more information about the shopping centre, please visit the website of Mediterranean Cosmos, www.medcosmos.gr.

### Following the acquisition, LAMDA Development has proceeded with its strategy to fully exploit the centre's potential.

### **FLISVOS MARINA**

Just 6 km away from the centre of Athens, Flisvos Marina is Greece's first world class marina, catering to the needs of a large number of mega yachts, while offering possibilities for commercial use and venues open to the public. Similar development models have been successfully operating abroad for years.

LAMDA Flisvos Marina has undertaken the Marina's management and utilization for 40 years, aiming to transform it into a premier marina in the South-eastern Mediterranean.

The marine facilities in combination with mild development and a unique architectural style have contributed to the creation of a world-class marina that is expected to attract upscale tourism. After the recently completed north pier works, Flisvos Marina offers a total of 303 berths spots, 50% of which accommodate mega yachts (boats and luxury yachts exceeding 30 meters in length). Berth occupancy reaches almost 75%.

The income from port services and property leasing amounts to €11.5 million, while EBITDA for 2011 amounts to €0.2 million. Regarding the land infrastructure, an area of 56.000 sq.m. has been upgraded, including 3.800 sq.m. of land-

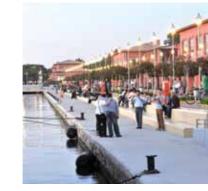

scaped area where yacht owners and marina visitors can enjoy a diverse array of 37 units for shopping and leisure activities, such as restaurants, cafes, bars, leading brands and retail stores. This area is surrounded by 23.000 sq.m. of green, while more than 1000 trees were planted during its upgrade. Tenant occupancy in Flisvos Marina commercial areas reaches almost 100% with customer visits being particularly high.

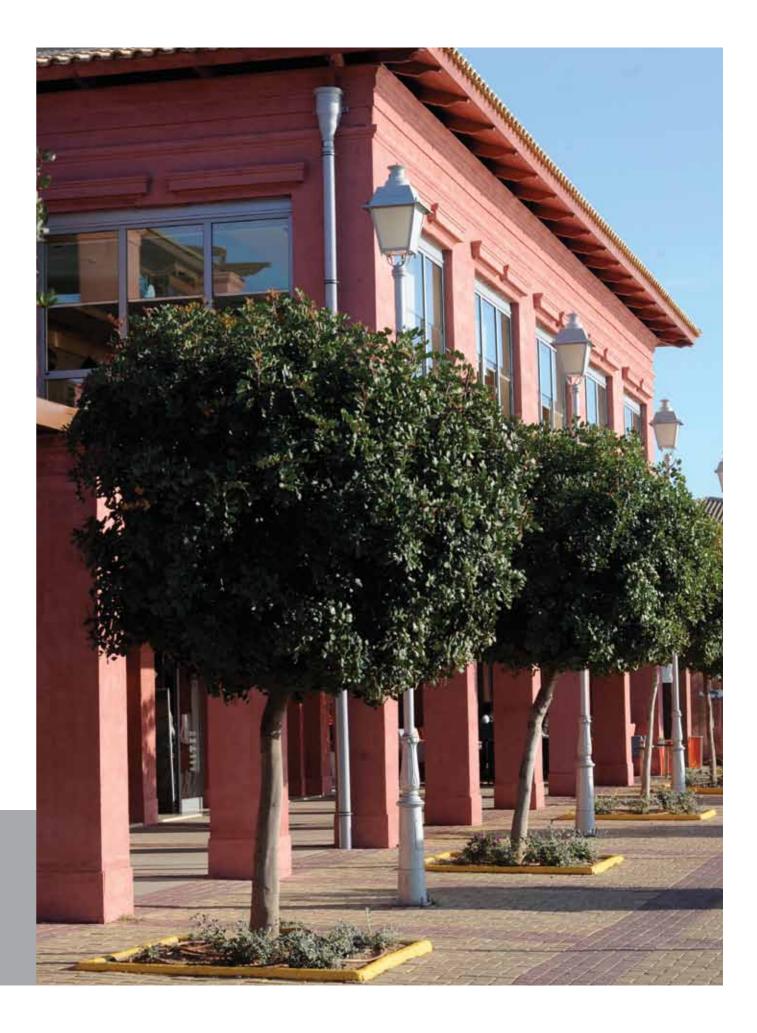

Quality services, safety and environmental awareness are the main principles of the marina management aiming at a continuous and sustainable improvement. For the fifth running year the management of Flisvos Marina was awarded the "Blue Flag" ecolabel and the certification by Lloyd's Register Quality and Assurance Group for quality and environment management as per ISO 9001:2008 and ISO 14001:2004, making it Greece's first and only marina to hold both certifications. In 2011 Flisvos Marina was also awarded with 5 Gold Anchors, obtaining the highest rating at the Gold Anchor Award Scheme program of the British Marine Federation, as well as the distinction "Clean Marina" (Clean Marinas Programme) from the International Council of Marine Industry Associations (ICOMIA) after relevant evaluation. With regard to Flisvos Marina legal is-

sues, please refer to the Annual Financial

Report 2011, which is also uploaded on

the company's website, www.lamda-development.net

For more information about the Marina, please visit Flisvos Marina's website, www.flisvosmarina.com
