For LAMDA Development group, 2010 - in spite of the deep economic recession - was another positive year in terms of recurring EBITDA that reached €42,7 million, up by 2% as compared to the previous year 2009. Occupancies in our shopping centers remain close to 100% which resulted to a pre-valuation EBIDTA increase of 8%. As expected however, property fair market values declined due to yields expansion resulting in a consolidated group net loss of €29,1 million. Our balance sheet remains healthy, given that consolidated net loan to value ratio stands at 49%, while group cash liquidity nears €150 million.

Developments in 2010

It is very encouraging to us to continue having more than satisfactory results in the operation of our shopping centers. Despite the challenges in maintaining and promoting visitor frequencies and high consumption levels to support the totality of our tenants, we have managed to show results that are very favorable in comparison to the rest of the retail market in Greece.

Shopkeepers' turnover in our three malls dropped by an aggregate 8.8% compared to an average of 30% drop in the corresponding retail subsecof both the shopping center and the tors in Greece as a whole. €700 million, posting a rather small aggregate decrease by 8.8% versus last year.

With regard to our other operating assets, it is worth noting that Flisvos Marina still manages to have a positive impact on the Group's results despite the recent downturn and "unfair" competition that has prevailed in the marina sector. Total revenues increased by 3% while recurring EBIDTA dropped by 5%. It should be reminded that in March 2010, we completed our investment to increase the berthing capacity by adding 50 new berths, bringing total capacity to 303 berths. The marina enjoys the unique position to offer its services to mega yachts for about half of the total berthing capacity. Furthermore, the very pleasant land commercial facilities attract an ever increasing number of visitors, estimated at approximately 15,000 visitors per day during weekends and holidays, rendering the marina a social destination point.

Another important component of our income generating assets is our investment in EUROBANK Properties, the listed real estate investment company, in which LAMDA Development owns 14.8% of its share capital as of 31-12-2010. During 2010, we continued to increase our participation in subject company from 13.9% in 2009 as we believe that it has very strong capital structure, good quality of tenants and a solid investment portfolio. All these merits are not reflected in its share price, which is still traded at a significant discount, almost 40%, compared to its Net Asset Value. The total number of shares purchased in the last three years reached 2,773.937 at an average acquisition cost of €6.41/share. Due to the drop in its share price, in 2010 we realized a revaluation loss of €19,8 million which decreased our NAV by same amount in the balance sheet.

With regard to new real estate development activity, we remain very cautious in view of the recessionary economic conditions in Greece and SE Europe where we hold our land banking assets. As stated in our strategy last year we would not contemplate to start construction activity without satisfactory percentage of pre-sale or pre-let agreements. The exception is the continuing investment in "Singidunum" re-zoning project in Belgrade according to our initial plan, as we are pursuing to buy the necessary farm land to be able to implement this re-zoning plan; our portion of total investment cost has reached €39,2 million.

Revaluation losses in our investment portfolio reached €39,3 million. The total fair market value of our shopping centers and offices dropped further by 4.3% given further increases in capitalization rates, a result of increasing sovereign cost of risk. The impact on valuations would had been significantly larger if the property appraisers had not positively accounted for the sustainability of recurring EBITDA and our strong market leadership now and certainly even more so at a later stage when the economy stabilizes.

We continue enjoying a comfortable liquidity position and reiterate our cautious approach in cash flow planning. Our net loan to value ratio stands at 49% and our group cash position amounted to over €150 million at the end of the year. Financial covenants are comfortably met while major repayments start taking place after August 2012.

The solid performance of our operating assets led to a 2% improvement in recurring EBIDTA and it should also be underlined that we managed to further decrease overheads by 4% this year following a 10% cut the year before. The group posted a loss of \in 29,1 million compared to \in 7,7 million gains in 2009 which is attributed to fair value losses of our investment portfolio assets. Net Asset Value dropped by 10% to €448 million, representing a €11 NAV/share.

The company's common stock was quoted in the Athens Exchange at €3.91 per share or at a discount to NAV of 65% on December 31, 2010. We believe that such large discount to NAV is totally unsubstantiated and that it solely reflects the grim sovereign risk situation. During 2010, we continued our share buyback program and total treasury stock at the end of 2010 amounted to 3,010.078 shares, 6.8% of total common stock at an average cost of €5.23/share.

Going Forward

Deep fiscal tightening and nadir psychology has an alarming recessionary impact on the Greek economy and of course on retail sales and occupier demand. Despite the deep recession we remain confident that we shall continue to successfully manage our investment portfolio with all required amount of effort and problem solving involvement, capitalizing on our leading market position, the skills and experience we have accumulated in the past several years and on the good relationships we have built with most of the Greek and international retailers with presence in Greece who are also tenants in our shopping centers.

Regarding our development pipeline our first priority remains our two major projects in Belgrade where we continue to intensify actions to expedite detailed planning permissions and finalize business plans. On other fronts, our strategy is to focus on developing and investing in the retail real estate sector, whenever appropriate opportunities arise. We are constantly monitoring such opportunities in Greece and also Southeastern Europe where economic recovery is anticipated to start taking place at the end of this year. We need to stress here that our business strategy will continue even more so to be interwoven with our careful consideration of liquidity, risk management and cost control which have become of absolute key importance in the new economic reality.

Dear Shareholders,

Despite the market difficulties that we are facing we are confident and optimistic that we shall succeed in securing and enhancing our company's position in the present and in the future and remain an important regional player in the real estate sector. I also want to thank our employees for their effort and enthusiastic support in sharing this common vision. On behalf of the management and company employees, I want to thank you for the trust you have placed in us.

Odisseas Athanassiou CEO LAMDA DEVELOPMENT

2010 was another successful operating year for the Group in terms of recurring EBITDA which reached €42,7 million, registering a 2% increase compared to the previous year. The level and quality of rental income continue at highly acceptable levels as in the previous years, while occupancy in our shopping centres remains close to 100%. Despite the challenges in maintaining and promoting visitor frequencies and satisfactory consumption levels to support the totality of our tenants, we have managed to show results that are very favorable in comparison to the rest of the retail market in Greece. 2010 Financial Performance

The performance of Golden Hall has been very satisfactory given that recurring profitability increased by 13% while shopkeepers' turnover posted an increase of 2.5% and customer visits by 25%. Shopkeepers' turnover in The Mall Athens decreased by 10.5%, significantly lower than the total market, while total customer visits reached 11.9 million lower by only 6%. The operational performance of Mediterranean Cosmos in Thessaloniki is also relatively satisfactory given the decrease in shopkeepers' turnover by only 9%, while customer visits reached 8,3 million, same as last year.

Our office buildings still enjoy high occupancy levels and a positive contribution to the Group recurring profitability by \in 3,3 million.

Flisvos Marina recurring profitability decreased by 5% versus last year despite an increase in revenue by 3%. This is attributed not only to the

economic recession in Greece but also to the unusual competition in the neighbourhood. The completion of the marine infrastructure expansion, an investment of approximately €5 million, offered 50 new berthing facilities, reaching a total of 303 berths. This additional capacity is planned to contribute to the increase in turnover and profitability in the future. It is important to underline that about 50% of the 303 berths can be used by mega yachts with over 30 meters length, an advantage that only Flisvos Marina enjoys in Greece. The on-land commercial development (retail shops and restaurants) continues to attract increased footfall that approximates 15.000 visitors per day during the weekend and has become a reference point among the public in the seaside part of Athens. It must be noted that 80% of the €13,1 million annual turnover derives from berthing facilities.

The consolidated turnover of LAMDA Development Group during 2010 decreased only slightly by 1.7%, reaching €82,6 million, compared to €84 million in 2009.

Consolidated Net Profit after tax and minority interest recorded losses of \in 29.1 million compared to \in 7,7 million gains in 2009. The negative results are mainly attributed to the recognition of fair value losses of \in 39,3 million (compared to \in 13,8 million fair value gains in 2009) from the valuation of our investment portfolio at fair market values due to the across the board increase in capitalization rates. Finally, the extraordinary income tax had a negative impact of \in 2,6 million to the Group results.

Revaluation losses in our investment portfolio reached €39,3 million. The total fair market value of our shopping centers and offices dropped further by 4.3% given further increases in capitalization rates, a result of increasing sovereign cost of risk. The valuation of the Group's investment property at fair market value by the chartered surveyors Savills Hellas has an average net initial yield of 7.9% for both commercial centres and office buildings. The impact on valuations would had been significantly larger if the property appraisers had not positively accounted for the sustainability of recurring EBITDA and our strong market leadership now and certainly at a later stage when the economy stabilizes.

Investment Portfolio per Sector

10

The Net Asset Value of the Group stands at €448 million (or €11 per share), a 10% drop compared to the previous year. Under the circumstances this can be deemed satisfactory given the very significant drop in values that have prevailed in the real estate industry in Greece but also abroad.

Total investments in property reached €886,8 million on 31st of December 2010. The allocation of property investments, per type of property and per geographical location is illustrated below.

Investment Portfolio per Country

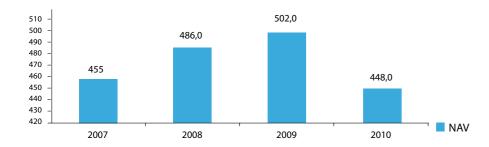

2010 Financial Performance

Loan to Value ratio stands at the healthy level of 49%. The Group maintains considerable liquidity of €150 million at the end of 2010, originating from own equity and bank loans in order to finance its development plan, but also to exploit potential investment opportunities, which may emerge in the near future as a result of the financial and economic crisis.

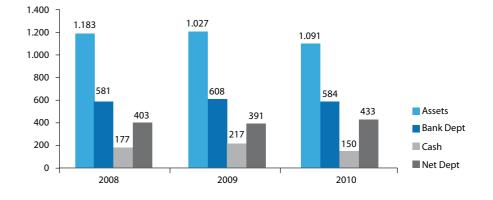

With regard to new real estate development activity we remain very cautious in view of the recessionary economic conditions in Greece and SE Europe where we hold our land banking assets. As stated in our strategy last year we would not contemplate to start construction activity without satisfactory percentage of pre-sale or pre-let agreements. Our share price in 2010 had a negative return of 48%, which was in line with the poor performance of the Athens Exchange. The local stock market has crashed due to the fact that the economic crisis in Greece has deepened. The free float of our stock stands at year end approximately at the level of 36%.

It should be noted that the share is part of the relevant ATHEX indexes

The Mall Athens

The Mall Athens, Greece's largest shopping and leisure centre began its operation in November 2005 and represents a milestone in Greek commercial reality, offering commercial and leisure facilities in 58,000 sq. m. of Gross Leasable Area (GLA).

The Mall Athens Investment Portfolio

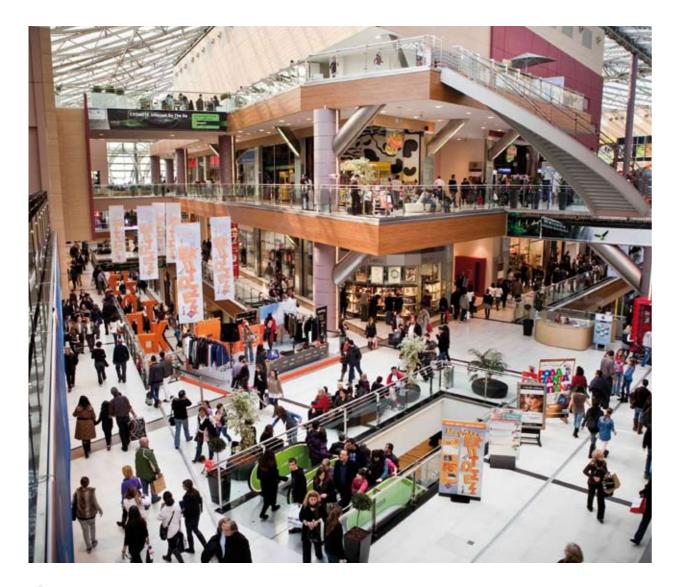

The large number of shops, combined with the multiple dining and leisure areas, easy and well protected parking areas, full-scale management services as well as direct and easy access to major highway routes and public transport have made The Mall Athens the perfect destination for the whole family.

The Mall Athens is constantly organ-

izing various events for the whole family, thus making the center one of the hottest spots in Athens for shopping and entertainment, offering a unique lifestyle experience to its consumers.

Due to its location, modern architectural design and support services, The Mall Athens offers customers easy, pleasant and safe visit so that

they can choose what they want easily and effectively. The Mall Athens is built on five levels of commercial use and three levels of underground parking space. It comprises 195 stores, including the most significant Greek and international brands, and offers 25 restaurants and cafes, a state-of-the-art 15-screen cinema complex, a multitude of support

services and approximately 2,100 parking spaces. ECE-LAMDA Hellas has undertaken

the smooth and effective operation of the centre.

The investment value of the commercial and leisure centre reached €320 million, while its current fair market value stands at €500 million. This is considered to be one of the largest private real estate investments ever implemented in Greece. The Mall Athens hosted approximately 12 million visitors during 2010. In 2010, shopkeepers' turnover reached €335 million (including VAT), while rental and parking revenues amounted to €36 million. Operating profits for the

shopping centre reached €32 million. The centre is fully leased, while demand from companies expressing interest in leasing space is particularly high. The investment has created approximately 2,500 new jobs. HSBC Property Investments Ltd has a 50% share in LAMDA Olympia Village, owner of The Mall Athens. With regard to The Mall Athens legal issues, please refer to the Annual Financial Report 2010, which is also uploaded on the company's website, www.lamda-development.net. The Mall Athens offers customers easy, pleasant and safe visit so that they can choose what they want easily and effectively.

Golden Hall

Golden Hall is ideally located on Kifissias avenue, close to the Athens Olympic Stadium and expands over three levels. Its 132 shops are occupying approximately 41,000 sq.m., while 1,400 parking lots are provided on two levels in order to facilitate visitors.

Golden Hall

The first two levels of the shopping center host mainly shops of women's, men's, children's fashion and footwear, accessories, jewellery stores, home equipment and decoration, cosmetics, sportswear, hair salon, bookstores, etc, and while shopping, visitors can indulge a coffee and snack break among its 7 cafes. The third level has five restaurants offering visitors different gastronomic options of Greek and international cuisine as well as a playground for children and a fully equipped area for teenagers.

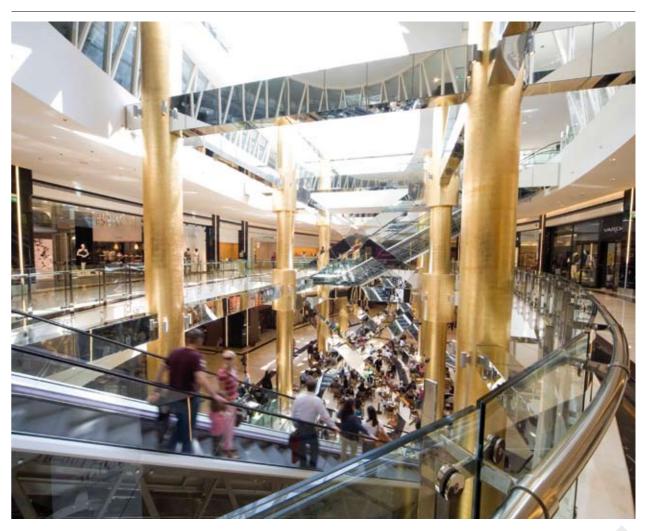

The most famous Greek brand names and the most renowned international ones - many of which are introduced for the first time to the Greek market through Golden Hall - have made the shopping centre the new point of reference for quality shopping in Greece.

The development cost for Golden Hall amounted to approximately €80 million, while its current commercial value approximates €112 million. Shopkeepers' turnover reached €171 million (including VAT), while rental and parking income (including office complex) amounted to €18,9 million. Operating profits for the shopping centre reached € 8,5 million. The center is fully leased. ECE-LAMDA Hellas, a specialist in the management of shopping centres, has undertaken the management of the centre. Golden Hall is top rated in European Level for 2010 in the Euro-

pean Shopping Center Awards (ICSC) and was awarded the first prize in it's category. Golden Hall, has also been acknowledged as a Superbrand and honoured with the first prize in the category "Shopping Centre, Super Markets & Department Stores" in the Corporate Superbrands 2010. With regard to Golden Hall legal issues, please refer to the Annual Financial Report 2010, which is also uploaded on the company's website,

Mediterranean Cosmos

Mediterranean Cosmos in Thessaloniki, the largest commercial and leisure centre in northern Greece, began its operations in October 2005. The centre's most important advantages are the large number of shops, the diverse dining & leisure areas, the wide range of activities for all family members within the same venue, as well as the full-scale property management services provided by the centre.

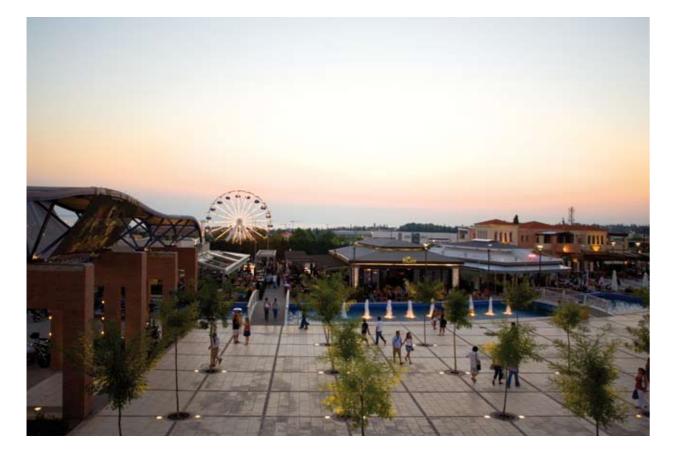

Investment Mediterranean Cosmos Portfolio

Mediterranean Cosmos stands on a 250,000 sq.m. site owned by the Ecumenical Patriarchate and has been developed on two main levels of 46,000 sq.m. of Gross Leasable Area, which are served by a network of interior pedestrian pathways. The shopping centre offers approximately 3,000 parking spaces. Mediterranean Cosmos is an everyday destination due to its 209 shops, 37 restaurants and cafes, super-markets, a cinema complex and a bowling room, a 400-seat open theatre, a playground, an Orthodox church, exemplary auxiliary services

and a traditional Greek village. The centre provides easy access from the city centre and surrounding areas, and is located within five minutes distance from the international airport and major highways. In 2010 LAMDA Development acquired 100% ownership of Mediterranean Cosmos and the full control of the management of the shopping center. The investment cost of the acquisition (share of 39,9%) amounted to €78 million. The development cost of the centre reached €120 million, while its current fair market value stands at €180 million.

Mediterranean Cosmos attracted 8,2 million visitors during 2010. Shopkeepers' turnover amounted to €205 million (including VAT) and rental income amounted to €20 million. Operating profits for the commercial centre reached €15,2 million. The centre has almost 100% occupancy and has created approximately 2,000 new jobs.

For more information about the shopping centre, please visit the website of Mediterranean Cosmos, www.mediterraneancosmos.gr.

Flisvos Marina

Just 6 km away from the centre of Athens, Flisvos Marina is Greece's first world class marina, catering to the needs of a large number of mega yachts, while offering possibilities for commercial use and venues open to the public. Similar development models have been successfully operating abroad for years.

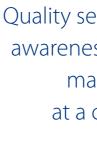

LAMDA Flisvos Marina has undertaken the Marina's management and utilization for 40 years, aiming to transform it into a premier marina in the South-eastern Mediterranean. The marine facilities in combination with mild development and a unique architectural style have contributed to the creation of a world-class marina. After the recently completed north pier works, Flisvos Marina offers a total of 303 berths spots, 50% of which accommodate mega yachts (boats and luxury yachts exceeding

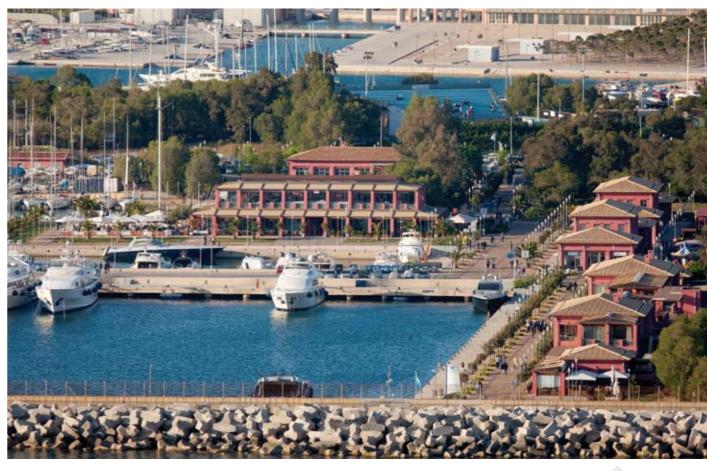

30 meters in length). Berth occupancy reaches almost 80%. The income from port services and property leasing amounts to €13,2 million, while EBITDA for 2010 amounts to €3,3 million. Regarding the land infrastructure, an area of 56,000 sq.m. has been upgraded, including 3,800 sq.m. of landscaped area where yacht owners and marina visitors can enjoy a diverse array of 37 units for shopping and leisure activities, such as restaurants, cafes, bars, leading brands and retail stores. This area is surrounded

by 23,000 sq.m. of green, while more than 1.000 trees were planted during its upgrade. Tenant occupancy in Flisvos Marina commercial areas reaches almost 100% with customer visits being particularly high. Quality services, safety and environmental awareness are the main principles of the marina management aiming at a continuous and sustainable improvement. For the fourth running year the management of Flisvos Marina was awarded the "Blue Flag" ecolabel and the certifica-

tion by Lloyd's Register Quality and Assurance Group for quality and environment management as per ISO 9001:2008 and ISO 14001:2004, making it Greece's first and only marina to hold both certifications. With regard to Flisvos Marina legal issues, please refer to the Annual Financial Report 2010, which is also uploaded on the company's website, www.lamda-development.net.
